DETAILED ACTION

Response to Amendment

1. This action is in response to the communication filed on 2/13/06.
2. Claims 1-19, 21 and 23-25 were cancelled in a previous amendment.
3. Claims 20, 22 and 26 are pending in this action.
4. The indicated allowability of the claims (in particular claims 21 and 24) has been withdrawn due to the discovery of a new reference issued to Lohtia et al. (US 6,560,456 B1).

Double Patenting

Claims 20, 22 and 26 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-14, particularly claims 1, 5-14 of U.S. Patent No. 6,560,456 B1. Although the conflicting claims are not identical, they are not patentably distinct from each other because the difference between the claims in the instant application and the claims in the patent is that the claims in the instant application are more broader than the claims in the patent since the claims in the patent require that the retrieved data be sent to a/the subscriber via a SMS message while the claims in the instant application provide no means of sending/transmitting the retrieved data to the subscriber. This difference obviously suggests that the data in the claims of the instant application could be transmitted/sent by any known data transmission/sending means, including the SMS.
